COMPANY OVERVIEW

Mesa Fab Shop, Inc. is a family-owned, AISC-certified structural and miscellaneous steel fabricator in Pueblo, Colorado. For four decades we have taken projects from approved shop drawings through fabrication and into erection — carbon steel, stainless and aluminum — with our own in-house crew and equipment, shipping nationally. One shop from drawings to delivery: direct communication, competitive pricing, and steel built to the strictest standards.

CORE COMPETENCIES

- Structural steel fabrication & erection
- Miscellaneous & architectural steel
- Stainless steel and aluminum fabrication
- Design-assist through field erection — full in-house
- Projects from 10 to 1,000 tons, shipped nationwide

QUALITY & COMPLIANCE

- AISC-Certified Fabricator — Cert No. C-00027636
- Certified Welding Inspector (CWI) on staff
- Fabrication to AISC standards & project specifications
- In-depth material and process tracking on every job

IN-HOUSE EQUIPMENT

- Waterjet cutting
- CNC plasma cutting table
- Two small member saws + two large saws
- Press brake (forming)
- Plate shear
- Eight weld stations
- Industrial paint building w/ sandblasting
